

COMPANY OVERVIEW

The key to confidential deals in Québec

Clé is the Québec-first, French-first platform where real-estate and business-transfer professionals move confidential deals forward: a trusted network, shared transaction dossiers behind confidentiality agreements, and tools designed from day one around Québec law.

French first

Designed around Québec law

Pre-launch · fictional data

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

THE PROBLEM

Confidential deals deserve better than email threads and shared drives.

BUSINESS TRANSFERS

9,365

Québec SMEs changed hands in 2022

Repreneuriat Québec (formerly CTEQ)

ACROSS CANADA

\$300B

business-acquisition wave over five years

BDC, January 2026

RESIDENTIAL REAL ESTATE 2025

97,214

Centris sales in Québec (+8%), \$52.65B in volume

QPAREB, 2025 annual

2026: REBALANCING

64,327

sales January–August (–5%), active listings +21%

Centris, August 2026

What we want to verify with design partners

- Deal documents (financial statements, leases, reports) travel by email and shared drives.
- Confidentiality agreements are signed separately, with no clear record of who saw what.
- Few tools are built French-first and around Law 25.

Working hypotheses. Interviews with design partners will confirm or discard them, before any launch.

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

Market figures are real, with source and date

THE IDEA

One closed, French-first place to move a confidential deal forward.

01

A trusted network

Brokers, notaries, CPAs, lawyers and contractors. Licence information checked one record at a time with the person's consent, never scraped (verification is simulated in the demo).

02

Shared transaction dossiers

Open to invited participants only, behind a confidentiality agreement. This is the core of the product.

03

Québec law from day one

French first (Charter of the French language), privacy by design (Law 25), each feature mapped to the regime it touches.

What Clé does not do

- Not a real-estate brokerage: no mandates, no negotiation, no presenting offers, no organised visits
- No commissions, success fees, referral fees or percentages of a sale or a raise
- Holds no deposits or funds
- Offers no securities and gives no investment advice
- Gives no legal advice
- No real transactions today: fictional demonstration data

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

PROPERTY LISTINGS

Listings published by licensed brokers.

The fields advertising rules require

- Broker and agency name and licence
- Seller's declaration
- Legal warranty
- Invitation to submit offers
- Listing freshness controls

A request to talk, nothing more BEING REBUILT

A buyer will be able to ask to talk to the listing broker, and nothing more: no price, conditions or dates will pass through Clé. Offers are made with a broker, on the mandatory forms, outside Clé. The live demo will be updated with this rework.

1

Buyer asks

2

Broker replies

3

Offer, outside Clé

16,704 OACIQ licence holders at end-2024 (source: OACIQ). Clé is designed as a tool for them; it does not do their work: no negotiation, no presenting offers, no organised visits.

BUSINESSES FOR SALE

Selling a business without everyone knowing.

1

Anonymous teaser

Sector, region and scale, no name

2

Confidentiality agreement

In French, with a summary provided before signing

3

Full file

Open to invited participants only

4

Professionals

CPAs, notaries, lawyers and brokers do their work

Routing at intake, being added. Businesses whose value is mainly real estate will be routed to licensed brokers. No fee is tied to the value of the deal.

The context. 9,365 Québec SMEs changed hands in 2022 (Repreneuriat Québec). BDC describes a \$300B Canadian business-acquisition wave over five years (January 2026).

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

Market figures are real, with source and date

THE CORE OF THE PRODUCT

A transaction dossier closed to the uninvited,
from the first document to the notary.

Confidentiality agreements in sequence

French first; no access before signature.

Invited participants only

The professional in charge decides who comes in.

Document versions

Every upload keeps its history.

Checklist

What is still outstanding, visible to all participants.

Activity log

Who looked at what, and when.

Notary handoff

The dossier is handed to the notary, who does their work outside Clé.

Privacy by design (Law 25): access, correction, portability, deletion and a consent register. Launch with real users stays gated on these requirements.

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

PROJECTS & CIRCLES · IN PREPARATION

Gather around a project, without ever pooling money.

PROJECTS & TEAMS

Find partners, co-founders and roles

- A page describes the project and the skills it needs.
- Project pages are being reworked to remove every money field: no funding target, no amounts, no pledges.

INVESTOR CIRCLES

Circles by sector, region or project (in preparation)

- Members would share analysis and questions.
- Each member would decide individually.
- No pooled money, and no investment advice from Clé.

A circle is designed not to be an investment group: no collective decisions, no common fund, no target amount. No circle is attached to an open or planned campaign. A funding campaign could only ever run through a registered funding portal (next slide). These terms will go through independent legal review.

● In preparation: not yet in the demo

REGULATED CROWDFUNDING · IN PREPARATION

Campaigns for new ventures and projects, only through a registered funding portal.

Designed on Canada's start-up crowdfunding rules (NI 45-110):

Caps

per company and per investor

French offering document

in Québec

Withdrawal right

for every investor

Funds in trust

held by the funding portal

- In preparation: not yet in the demo, no real campaigns

Clé's commitments

- Any campaign would run only through a registered funding portal.
- Clé never holds investor money.
- Clé never takes a percentage of amounts raised.
- No portal partnership has been concluded to date.

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

BUSINESS MODEL

Flat subscriptions. Never a percentage.

WHO PAYS

Professionals and firms

A flat subscription, per team or per dossier.

WHO DOES NOT PAY

Invited participants

They use Clé free of charge.

PRICING

Set with design partners

No prices are published before those conversations.

NEVER TIED TO

a referral, a lead, a sale or a raise

Never contingent on the outcome or value of a deal.

Why: flat pricing, never contingent on the outcome or value of a deal, is meant to keep Clé away from brokerage and dealing activities it is not authorised to carry on. Independent legal review still has to confirm this.

AI WITH HUMAN REVIEW

AI suggests a draft. A person decides.

1

AI drafts

Message drafts and dossier summaries

2

A person reviews

Nothing goes out without their approval

3

The person sends

Under their own name, knowingly

AI content flagged

AI-produced content carries a notice to verify it before use.

Guardrails before display

Every AI output goes through rules that block, among other things, promised returns and claims of real verification by the AMF or a registry.

Refusals to strengthen IN PROGRESS

Declining legal opinions, prices, conditions and offer clauses, and removing any mandate language.

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

WHERE THE PRODUCT STANDS

Built and tested, on fictional data.

API

Automated server test suite

Web

Automated application test suite

End to end

Journeys tested in a real browser (Playwright)

Built and tested on fictional data. Exact counts are published only after a fresh, dated run at publication time.

Engineering choices

- argon2id passwords and two-factor authentication (TOTP)
- Server-side role checks; nobody can grant themselves licence verification
- Deal rooms locked to their participants
- Jurisdiction engine that fails closed

What does not exist yet

- No customers, no revenue: Clé is pre-launch.
- No independent legal review has been done yet.
- The September 2026 rework is under way: the live demo does not reflect it yet.

Demo on fictional data: ssocciarelli.github.io/cle-mvp

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

REGULATORY APPROACH

Every feature, mapped to the regime it touches.

Clé is designed to stay outside regulated activities it is not authorised to carry on. Each feature is mapped to the regime it touches (OACIQ, AMF, Law 25, Charter of the French language, consumer protection, FINTRAC); features that would require a licence or registration are not offered. Independent legal review is required before any launch; nothing here is legal advice.

FEATURE	REGIME IT TOUCHES	WHAT CLÉ DOES, AND DOES NOT DO	REQUIRED BEFORE IT COULD EVER GO LIVE (NOT EXHAUSTIVE)
Property listings	OACIQ · consumer protection	Publishes licensed brokers’ listings with the required fields. Does not negotiate or present offers.	Real licence checks, one record at a time, with consent · legal review
Businesses for sale	OACIQ · AMF · Charter of the French language	Anonymous teaser, French agreement, closed file. Routing to brokers (mainly real estate): being added.	Intake routing criteria confirmed by a lawyer
Transaction dossiers	Law 25 · reserved acts (notaries, lawyers)	A space for invited participants only. No legal advice.	Privacy officer · privacy impact assessments · Canadian hosting
Circles & crowdfunding	AMF · FINTRAC	In preparation; nothing is live. No funds held, no securities offered, no percentage.	A registered funding portal as partner · legal opinion
Subscriptions	Consumer protection · Charter of the French language	Flat prices, never contingent on the outcome or value of a deal. Contracts French first.	Terms reviewed by a lawyer
AI assistance	Law 25 · consumer protection	A person approves every draft. Declining legal opinions and offer terms: being added.	Assessment and written agreement with the AI vendor before any personal information leaves Québec

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

Nothing here is legal advice

ROADMAP

The next steps, in order.

- Today: pre-launch, product built and tested on fictional data

Each step waits for the one before. No dates are promised beyond the next one.

Demonstration: all people, firms, properties and figures are fictional. No real transactions, payments or securities. Clé is not a real-estate agency, holds no OACIQ licence or AMF registration, and gives no legal, tax or investment advice. This site sets no cookies or trackers.

Building Clé with the professionals who run the deals.

We are looking for design partners: business-transfer advisers, CPAs, notaries, lawyers and commercial and multiplex broker teams.
